Wireless Cord-free
High performance

Introducing the NEW Oricom
DECT Conference Phone C1000
- the Wireless, Cord-free, High-performance Conference Phone

Completely wireless, the Oricom DECT Conference Phone C1000 has been specifically created to allow you to hold two-way conference calls anywhere, anytime. Better still, it uses unique, advanced patented technology to deliver high-quality sound that is crisp and clear.

- Wireless
- Portable and versatile
- Outstanding performance
- Crystal-clear audio quality
- Ergonomic and stylish design

Complete Flexibility and Mobility

Designed to suit many applications, the Oricom DECT Conference Phone C1000 provides you with complete flexibility and mobility. You can hold conference calls in any meeting room, free of messy wiring. Plus, the totally versatile Oricom DECT Conference Phone C1000 is adaptable to different conference table layouts. It can easily handle conferences for up to 8 people.

Easy to Set Up

Easy to set up, you simply plug the base unit into a telephone socket and power point, then charge up the high-performance battery in the pod before using it to conduct your conference calls. Because it's totally wireless, the pod requires no telephone wiring or permanent electrical connection so you can use it in the office or any place of your choice. And since the pod connects to the base without wires, there's no need for holes in conference tables.

Easy to Use

Easy to use, it has a soft-touch, integrated keypad and a large LCD information display centre with real-time status reporting. The unit is used just like a standard phone, receiving and making calls directly. It also allows access to all your PBX system features. The Oricom DECT Conference Phone C1000 provides you with up to 10 hours talk time - that's plenty for your conference call. A dual colour LED indicator lets you know when the mute button is on, avoiding any embarrassing situations. You can also record your calls using the audio jack on the base.

Outstanding Performance

The Oricom DECT Conference Phone C1000 delivers outstanding performance. It boasts a patented echo-cancellation algorithm which constantly adjusts to optimise audio performance in any environment. You receive superior crystal-clear audio quality with no voice clipping as the phone automatically adapts to the changing office environment.

What's more, the Oricom DECT Conference Phone C1000 has three microphones for 360° sound pick-up, while its speaker is mounted in a special floating enclosure to deliver a rich bass response.

Ergonomic and Stylish

Ergonomically and stylishly designed, the Oricom DECT Conference Phone C1000 will complement any conference room. It's the perfect choice for wireless, full-duplex conference calls.
